

## Testimonials

### Beauty Queen

*"I've been going there for 3 years. Everyone tells me it helps me look younger. When I don't go, I start to droop. Treatment tightens up my skin. I do it for myself. I feel more self-esteem."* (BD)

### Interior Designer

*"I used to have a lazy eye and now I don't because of the acupuncture. In my business, you have to look good. When your face is looking good, your whole attitude is better. It's a catalyst for lots of changes. I don't want to look 40. I want to look a good 60."* (RZ)

### Fashionable Woman About Town

*"After treatment I can feel the difference. My face feels and looks firmer. My skin feels tighter. The right and left side are balanced. Like any beauty regime I have to do it on a consistent basis."* (AT)

# Acupuncture Facial Rejuvenation

The ancient art of acupuncture facial rejuvenation has its roots in Chinese Medicine. This incredible treatment boasts a host of benefits. Fine lines and wrinkles disappear. Skin is smoother. Sagging jawlines tighten. Hollow cheeks fill in. Skin tone and color improve.

## What is Acupuncture?

Acupuncture is the insertion of hair-thin needles into specific points along meridians or pathways of energy to balance the body physically and emotionally. When the life energy, called Qi, flows smoothly through the meridians, health and wellbeing are optimized. Acupuncture enhances circulation, stimulates collagen production, and improves muscle tone. It also raises immune function, and promotes tissue healing. Acupuncture improves the appearance, relieves tension and relaxes muscles.

## Other Benefits

*\* Acupuncture facial rejuvenation can benefit the whole body.*

Acupuncture points on the face connect to internal organs via the meridians. Many underlying health problems improve. When the internal organs are healthy and balanced, the face and neck have a more youthful appearance. The effects of aging are reversed.

*Relieve sinus problems, jaw pain, headache, and eye spasms while renewing your looks.\**

Many things impact skin quality. Sun exposure, dehydration, lack of sleep, thought patterns, stress, hormones, nutrition, smoking, and drinking affect your appearance. Treatments are customized to each person's individual needs.

For best results, a series of 12 treatments once or twice a week is recommended. The ideal frequency to maintain all the benefits is treatment every month or two.

Acupuncture facial rejuvenation is most effective combined with nutritional supplementation and facials. See your aesthetician for skin care advice.
